CALFIRE

Ecofan® Operating Instructions

The Ecofan is designed to be used on freestanding wood stoves with normal surface temperatures of up to 650°F (345°C). Relocate your Ecofan to a cooler spot on your stove if the surface temperature exceeds 650°F (345°C) as temperatures above this may damage your Ecofan. See the Specification table below for details of the minimum useful stove top temperature for each Ecofan model. Good wood stove practice includes using a stove thermometer.

Safety

- * Ensure the Ecofan handle is upright before placing on stove.
- * While in use, the base of the Ecofan is very hot. **DO NOT TOUCH!**
- * When repositioning your Ecofan always use the handle.

Getting the Most From Your Ecofan®

For optimum performance, placement on the stove's surface is critical to allow cooler air to be drawn over the cooling fins. Place the Ecofan at the back corner of the stove as shown in the diagram. Should the gap between the Ecofan and back wall be less than 150mm (6") then move the Ecofan forward along the side of your stove and turn it in slightly. This should ensure the fan can draw necessary cool air from the rear/side of the stove. The Ecofan should not be used directly in front of the stove pipe or at the front of the stove.

NOTE: Overheating will reduce the Ecofan's effectiveness and may damage the thermoelectric module and void the warranty. Remove the Ecofan from the stove if temperature exceeds 650°F (345°C).

Specifications

Model	812 AirMax	810 UltrAir	800 Original
Airflow	175 CFM	125 CFM	100 CFM
Fuel Savings	18%	14%	12%
Feel the Heat Faster*	38%	31%	20%

Blade Size	232mm (9")	206mm (8")	206mm (8")

* Time taken to reach 68°F (20°C) from a cold start of 63°F (17°C) in a standard test environment
AirMax: 68 minutes **UltrAir:** 76 minutes **Original:** 87 minutes **No Fan:** 110 minutes
**Temperature required to produce 50 CFM airflow

UK Warranty

This product has a 2 year warranty.

Calfire Spareline Limited offer warranty support to UK residents who have bought their Ecofans through bona fide UK retailers. If you bought your Ecofan direct from another Country; through a non-authorized dealer or if you live outside of the UK, you will need to contact the original seller for warranty support.

This product is warranted to be free from any manufacturer's defects in material and workmanship for a period of 2 years from the date of purchase. Should this product become defective or fail to operate under normal conditions within this 2 year period, simply email ecofans@calfire.com advising which model you have; the serial number of your unit (found on the underside of the top casting); when and from where you purchased the item and details of the fault you are experiencing. If subsequently instructed to return the item then this should be sent, with a copy of the warranty notification email and a copy of the original invoice or cash register slip, to the UK Ecofan distributor Calfire Spareline Limited at the following address: **Calfire Spareline Ltd., Gledrid, Chirk, Wrexham LL14 5DG**

Please ensure that you provide full contact details including an email address and mobile phone number as these can be used by the carrier to advise when the returned parcel will be delivered to you. Goods should not be returned without first having advised Calfire of the problem being experienced and having received the instruction to do so.

This warranty covers household use only and does not cover commercial or industrial use. This warranty does not cover abnormal wear or damages resulting from accident, misuse, abuse or, if applicable, breakage (when such breakage is not due to a manufacturing defect) and any other incidental or consequential damages. This warranty is in lieu of any other expressed warranties.

Motor Replacement Kits & UK Refurbishment Service

812 & 810
Motor Kit
ES009

800
Motor Kit
ES006

The Ecofan motor is designed for several seasons of use under normal operating conditions. If your fan spins much slower or the blade requires a push to start, a simple motor replacement may be the solution. Replacement motor kits are widely available for all model options; see www.ecofan.co.uk/warrantyterms for further details.

A full UK Refurbishment Service is offered by Calfire should repair become necessary after the warranty period has expired. You can review the 'UK Refurbishment Service' options at: www.ecofan.co.uk/warrantyterms

Keep the Box

We recommend that you keep your Ecofan box. You can use this for storage over the summer months and it will make it easier if you need to return the fan under warranty or for refurbishment.
